**From #1 Bestselling Amazon author Katie Rose Guest Pryal:**

**Fractured family, deadly secrets, and a woman on the run in L.A.**

The day she buries her mother, Miranda George jumps on a plane from North Carolina, telling no one where she's heading. She wants to disappear and start over. She arrives on the Los Angeles doorstep of college friend Daphne Saito, and even though Miranda hasn't seen Daphne in years, Daphne welcomes Miranda into her home and her makeshift L.A. family.

The problem is, Miranda is on the run from family. All family. Family, in Miranda's experience, can get you killed.

Miranda takes off again, but this time her plan is much more sinister. She certainly doesn't expect her friends to track her down. When they bring her back from the edge, the question remains: will Miranda be able to save herself and her newfound friendships? Or will she remain strangled by the past?

Fans of Kerry Lonsdale and Catherine McKenzie will delight in this story of friendship, redemption, and the treacherous intersections in between.
